Notes: Some data estimated (see Sources for clarification). Data may not add to total due to independent rounding. Differences and percent changes are calculated using unrounded numbers.

---

**Crude Oil Supply**

(1) Domestic Production2
(2) Alaska
(3) Lower 48
(4) Net Imports (Including SPR)
(5) Imports
(6) Commercial Crude Oil
(7) Imports by SPR
(8) Imports into SPR by Others
(9) Exports
(10) Stock Change (+build; -draw)
(11) Commercial Stock Change
(12) SPR Stock Change
(13) Adjustment8
(14) Crude Oil Input to Refineries

**Other Supply**

(15) Production
(16) Natural Gas Plant Liquids7
(17) Renewable Fuels/Oxygenate Plant
(18) Fuel Ethanol
(19) Other8
(20) Refinery Processing Gain
(21) Net Imports8
(22) Other9
(23) Exports9
(24) Stock Change (+build; -draw)3
(25) Adjustment11

---

**Products Supplied**

(26) Total12
(27) Finished Motor Gasoline13
(28) Kerosene-Type Jet Fuel
(29) Distillate Fuel Oil
(30) Residual Fuel Oil
(31) Propane/Propylene
(32) Other Oils4

**Net Imports of Crude and Petroleum Products**

- States included are Alaska, Louisiana, Mississippi, and Alabama. These states are included because they are major importers of petroleum products and have significant refining capacity.

---

**Notes:**

1. Includes domestic and Customs-cleared foreign crude oil stocks held at refineries and tank farms or in transit thereto, and in pipelines.
2. Includes non-U.S. stocks held under foreign or commercial storage agreements.
4. Includes weekly data for NGLPs and LRGs (except propane/propanes), kerosene, and asphalt and road oil; and estimated stocks of minor products based on monthly data.
5. Domestic crude oil production includes lease condensate and is estimated using a combination of short-term forecasts for the lower 48 states and the latest available production estimates from Alaska. Weekly crude oil production estimates are rounded to the nearest 10,000 b/d at the U.S. and lower 48 state levels. For more details see Appendix B, under "Data Obtained Through Models."
6. Formerly known as Unaccounted-for Crude Oil, this is a balancing item. See Glossary for further explanation.
7. Includesfinished petroleum products, unfinished oils, gasoline blending components, fuel ethanol, and NGLPs and LRGs.
8. Includes denaturants (e.g. Pentanes Plus), other oxygenates (e.g. ETBE and MTBE), and other renewables (e.g. biodiesel).
9. Includes finished petroleum products, unfinished oils, gasoline blending components, fuel ethanol, and NGLPs and LRGs.
10. Includes an estimate of minor product stock change based on monthly data.
11. Includes finished petroleum products, unfinished oils, gasoline blending components, fuel ethanol, and NGLPs and LRGs.
12. Includes monthly adjustments for hydrogen and other hydrotreatment.
14. See Table 2, footnote #3.
15. Includes Total Product Supplied, Crude Oil Input to Refineries, and Net Imports.
16. Notes: Some data estimated (see Sources for clarification). Data may not add to total due to independent rounding. Differences and percent changes are calculated using unrounded numbers.
17. Source: See page 29.

\(^{1}\) = Not Applicable.  
\(^{2}\) = Data Withheld.  
\(^{3}\) Year data originally published for crude stocks included lease stocks which began being excluded from commercial crude oil inventories with data for the week ended October 7, 2016.  
\(^{4}\) Domestic crude oil production includes lease condensate and is estimated using a combination of short-term forecasts for the lower 48 states and the latest available production estimates from Alaska. Weekly crude oil production estimates are rounded to the nearest 100,000 b/d at the U.S. and lower 48 state levels. For more details see Appendix B, under "Data Obtained Through Models."  
\(^{5}\) Based on the latest reported monthly operable capacity.  
\(^{6}\) Calculated as gross inputs divided by the latest reported monthly operable capacity. See Glossary. Percentages are calculated using unrounded numbers.  
\(^{7}\) Finished motor gasoline production and product supplied include a weekly adjustment applied only to the U.S. total to correct for the imbalance created by blending of fuel ethanol and motor gasoline blending components. From 1993 to June 4, 2010, this adjustment was estimated from the latest monthly data and allocated to formulation and PAD District production data.  
\(^{8}\) Includes adjustments for fuel ethanol and motor gasoline blending components. Historical data prior to June 4, 2010 includes the adjustment allocated by PAD District and formulation.  
\(^{9}\) Adjustment to correct for the imbalance created by the blending of fuel ethanol and motor gasoline blending components. For details see Appendix B.  
\(^{10}\) Commercial and military kerosene jet fuel production is only collected from refiners and may not total to total kerosene jet fuel production.  
\(^{11}\) Includes propane/propylene production from natural gas plants.  
\(^{12}\) Includes those domestic and Customs-cleared foreign crude oil stocks held at refineries, and tank farms or in transit thereto, and in pipelines.  
\(^{13}\) Includes those domestic and Customs-cleared foreign crude oil stocks held at refineries and tank farms or in transit thereto, and in pipelines.  
\(^{14}\) Includes domestic and foreign crude oil stocks held in tank farms in Lincoln, Payne, and Creek counties in Oklahoma. Cushioning, Oklahoma, is the designated delivery point for NYMEX crude oil futures contracts.  
\(^{15}\) Includes crude oil stocks in transit by water between Alaska and the other States, the District of Columbia, Puerto Rico, and the Virgin Islands, as well as stocks held at transshipment terminals.  
\(^{16}\) Includes non-U.S. stocks held under foreign or commercial storage agreements.  
\(^{17}\) Excludes stocks located in the "Northeast Heating Oil Reserve", "Northeast Regional Refined Petroleum Product Reserve", and "State of New York's Strategic Fuels Reserve Program." For details see Appendix C.  
\(^{18}\) Exports are estimated.  
\(^{19}\) On December 18, 2015, the U.S. enacted legislation authorizing the export of U.S. crude oil without a license. Exports to embargoed or sanctioned countries continue to require authorization.  
\(^{20}\) Other Oil Exports = Total Exports less the exports of Finished Motor Gasoline, Kerosene-Type Jet Fuel, Distillate Fuel Oil, Residual Fuel Oil, and Propane/Propylene.  
\(^{21}\) Other Oil Product Supplied = Total Product Supplied less the product supplied of Finished Motor Gasoline, Kerosene-Type Jet Fuel, Distillate Fuel Oil, Residual Fuel Oil, and Propane/Propylene.  

Notes: Some data estimated (see Sources for clarification). Data may not add to total due to independent rounding. Differences and percent changes are calculated using unrounded numbers.  
Source: See page 29.  
R = Revised Data.
